Number of Interns	3

Project Description

This internship is with the U.S. Department of Agriculture Food and Nutrition Service (FNS). This e-intern should have excellent communication, creativity, and animation/ graphic design skills.

We are looking to bring to life current program information provided by FNS in regards to the Summer Food Service Program. These short, fun, memorable animations or informational videos go beyond a powerpoint slideshow and present the information in an engaging fashion. We are also open to communications strategies on how we can present information in new ways! Products will be used on our Youtube, website, and newsletter.

Potential video topics could include: how to videos, food safety, program compliance, summer meals toolkits (<https://www.fns.usda.gov/sfsp/summer-meals-toolkit>), best practices, and state agency monitoring guide.

Desired Skills Interests

Additional Information

Interns should have access to all computer programs associated to make these products. Interns may work as a team or individually, with collaboration with FNS subject matter experts.

Hunger doesn't take a vacation! The Summer Food Service Program, also known as the Summer Meals Program, was established to ensure that children continue to receive nutritious meals when school is not in session. When school is out, SFSP provides free meals to kids and teens in low-income areas. About 22.1 million children and teens receive free and reduced-price meals through the National School Lunch Program. But only about 1 in 6 of those (approximately 3.8 million) participate in the summer meal programs.
